Media Release

AGEL's Operational Wind Generation capacity crosses 1 GW with commissioning of 130 MW Wind Power Plant in Gujarat

Editor's Synopsis

- Adani Wind Energy Kutchh Five Limited commissions 130 MW wind power plant located in Kutchh
- This plant has 25-year Power Purchase Agreement ("PPA") with SECI at Rs. 2.83/kWh
- This takes Adani Green Energy's total operational renewable capacity to 8,216 MW

Ahmedabad, 26 May 2023: Adani Wind Energy Kutchh Five Limited ("AWEK5L", formerly known as Adani Green Energy Five Limited), a subsidiary of Adani Green Energy Limited ("AGEL") has commissioned 130 MW Wind Power Plant at Kutchh in Gujarat. The plant has a 25 year Power Purchase Agreement ("PPA") of 130 MW with Solar Energy Corporation of India (SECI) at Rs. 2.83/kWh.

With the successful commissioning of this plant, AGEL's operational wind generation capacity has increased to 1,101 MW and the total operational renewable generation capacity has increased to 8,216 MW. This places AGEL's total renewable portfolio well on track to reach its vision of 45 GW capacity by 2030.

The newly commissioned plant will be managed by the Adani Group's intelligent 'Energy Network Operation Centre' (ENOC) platform, which has continuously demonstrated and aided AGEL in achieving superior operational performance of its entire renewable portfolio spread across diverse locations in India.

Through its successive projects, AGEL has continued to integrate the objective of sustainability with economic development, creating jobs as well as enabling decarbonization in line with India's commitment at United Nations Climate Change Conference in Paris and taking it one step closer towards Climate Leadership.

About Adani Green Energy Limited

Adani Green Energy Limited (AGEL), a part of India-based Adani Group, has one of the largest global renewable portfolios with overall portfolio of 20.4 GW including operating, under-construction and awarded projects catering to investment-grade counterparties. The company develops, builds, owns, operates and maintains utility-scale grid-connected solar and wind farm projects. Key customers of AGEL include Solar Energy Corporation of India (SECI), National Thermal Power Corporation (NTPC) and various State Discoms. Listed in 2018, AGEL is a listed renewable company helping India meet its COP26 goals.
